Maryland American Water's Water Quality Report is Now Available Online

Report Shows Water Utility Continues to Meet or Surpass Water Quality Standards

Bel Air, M.D. – June 6, 2024 – Maryland American Water's most recent Water Quality Report is now available on its website under the Water Quality tab. The company is proud to report that once again it continues to meet or surpass water quality standards across the state.

The annual Water Quality Report (also referred to as a "Consumer Confidence Report") details the quality of water provided by the company to its customers using data collected from water quality testing in its local systems between January and December 2023. The U.S. Environmental Protection Agency (U.S. EPA) and the Maryland Department of Environmental Quality set standards for water quality and monitor test results to help utilities meet those standards.

"From meeting and surpassing state and federal drinking water standards to investing millions each year to upgrading our infrastructure, our employees take great pride in what we do each and every day," says Barry Suits, President of Maryland American Water. "We hold ourselves to the highest standards in delivering safe, clean, reliable and affordable drinking water to our customers."

Customers can access the Water Quality Report by visiting the Water Quality tab on Maryland American Water's website. Printed copies of the report are also available to customers who do not wish to access it online. Customers can call the company's customer service center at 1-866-641-2131 to request a hard copy of their local report.
