

New Jersey American Water to Invest \$6.88 Million in Summit Infrastructure

[New Jersey American Water](#) will replace approximately 2.4 miles of aging water main in Summit starting next month. The company is upgrading the aging water lines that were installed as far back as the 1920s with new 8-inch and 12-inch ductile iron main along Madison Avenue, Lincoln Avenue, Lafayette Avenue, Lowell Avenue, Webster Avenue, Gates Avenue, Montrose Avenue, Aubrey Street, Lewis Avenue, Plain Street and Weaver Street.

"These upgrades are an important step in ensuring that Summit continues to have reliable and safe water service for years to come," said Summit Mayor Elizabeth Fagan. "We appreciate New Jersey American Water's investment in our community, and we're committed to working together to make sure the project goes smoothly and with as little disruption as possible for our residents."

The project also includes replacing fire hydrants and utility-owned service lines along the pipeline route. Additionally, New Jersey American Water will replace any customer-owned service line that has been identified as lead or galvanized as part of [a statewide initiative](#) to remove all lead and galvanized service lines by 2031.

This \$6.88 million investment will continue to advance water service reliability and increase water flow for household consumption and fire protection in this community. This improvement is part of New Jersey American Water's multimillion-dollar initiative to accelerate the [renewal of water infrastructure](#) that has reached the end of its useful life in more than 100 communities across the state. According to the American Society of Civil Engineers (ASCE)'s [2025 Report Card for America's Infrastructure](#), over a trillion dollars in infrastructure investments are needed in water and wastewater across the country over the next two decades - [specifically \\$24 billion in New Jersey](#).

New Jersey American Water's local, qualified contractor, CRJ Construction, will begin work the beginning of April and expects to be completed by the end of August. Work hours will be from 8 a.m. to 4 p.m., Monday through Friday. Work outside of these hours is not expected unless required to maintain project schedule. Final street restorations will be completed in the fall of 2025.

Project timelines are subject to change due to a variety of factors including weather and availability of supplies. New Jersey American Water encourages customers to take a few moments to update their contact information and preferences in their [MyWater](#) account. Customers must opt-in for general alerts to receive local main replacement and other non-emergency notifications via phone call, text or email. Individuals who are not New Jersey American Water account holders but would like to receive alerts and notifications from the company can also sign up by visiting [awcodered.com](#) or by texting WATER to 99411.

For the public's and workers' safety, traffic restrictions and/or alternating traffic patterns are likely to occur during work hours. All emergency vehicles and local traffic will be allowed access during construction. New Jersey American Water values the safety of its workers and advises drivers and pedestrians to take caution in the vicinity of work sites.
