Pennsylvania American Water Proudly Participates in Drinking Water Week 2025

MECHANICSBURG, Pa. (May 5, 2025) – Pennsylvania American Water proudly joins communities across North America in an annual celebration of Drinking Water Week (May 4-10, 2025), a more than 40-year tradition led by the American Water Works Association, highlighting continuous investment into our water systems and offering educational resources to help provide resilient water and wastewater infrastructure for our customers.

“Pennsylvania American Water highlights Drinking Water Week by celebrating our continued commitment to investments that help us provide safe, clean, reliable and affordable drinking water to our customers,” said Brandy Braun, director of water quality and environmental compliance for Pennsylvania American Water. “Throughout the week, we encourage customers to help protect critical water and wastewater infrastructure through simple measures like rethinking what you put down your drains, making wise water choices and more. Using water efficiently can also help reduce water bills.”

Braun added that “Pennsylvania American Water remains committed to effectively addressing local water and wastewater infrastructure challenges, but we can’t do it alone. We are proud to work with communities, regulators and all key stakeholders to create a better tomorrow for our customers.”

Pennsylvania American Water provides educational resources to customers about topics such as watershed/source water protection, conservation and safe disposal of fats, oils and grease through community events and partnerships, bill inserts and its website under Water & Wastewater Information. Pennsylvania American Water customers can also learn more about the quality of their local water by reviewing their annual Water Quality Report at pennsylvaniaamwater.com/WQReports.
