# American Water Military Services Recognized for Excellence in Water Quality by Partnership for Safe Water

CAMDEN, N.J. – JULY 14, 2025 – American Water Military Services Group, a subsidiary of American Water (NYSE: AWK), the largest regulated water and wastewater utility company in the U.S., today announced its Fort Belvoir distribution system has received the Partnership for Safe Water (PSW) First-Year Directors Award for water quality excellence. The award, which recognizes ongoing efforts to optimize the operation and performance of water treatment plants and distribution systems, was recently announced by the American Water Works Association (AWWA).

“American Water Military Services is pleased to be recognized in delivering safe, clean and reliable drinking water to the military community at Fort Belvoir,” said Sean Wheatley, President, American Water Military Services Group. “This achievement reflects the efforts of our incredible team, who are dedicated to maintaining high standards and helping to ensure the health and safety to those who serve.”

Through the Department of Defenses’ Utilities Privatization program, American Water Military Services was awarded a 50-year contract to privatize the water and wastewater utilities at Fort Belvoir, Virginia in 2009. Responsibilities include system capital investment, regulatory and environmental compliance, planning, asset recapitalization, and long-term operations and maintenance.

American Water continually demonstrates its ongoing commitment to improving the quality of drinking water delivered to customers by optimizing its system operations across its national footprint. Through PSW, long-term achievements are celebrated with awards for maintaining consistent, high-quality performance and commitment to optimization at the water treatment plant or distribution system.
