

Jerseyville Splash Pad Opens in Partnership with American Water Charitable Foundation & Illinois American Water

BELLEVILLE, ILL. – August 26, 2025 – The City of Jerseyville, in partnership with American Water Charitable Foundation and Illinois American Water, announce the grand opening of its new community splash pad, located at Lion’s Club Park. A ribbon cutting celebratory event was held Wednesday, August 20, with city officials, Illinois American Water team members and community members in attendance.

“We are proud to unveil this exciting new splash pad, a vibrant addition that enhances our community’s outdoor spaces and draws families to our downtown area. This project reflects our dedication to fostering a space for families to gather, play and connect while bringing economic vitality in the heart of our city,” said Mayor Kevin Stork, City of Jerseyville.

Grants from the American Water Charitable Foundation and Illinois Department of Natural Resources’ FY 2023 Open Space Lands Acquisition and Development (OSLAD), as well as funding from the City of Jerseyville, helped make the new splash pad possible.

“The American Water Charitable Foundation is proud to invest in communities served by American Water, including Illinois American Water, which provides water and wastewater services in the City of Jerseyville,” said Carrie Williams, President of the American Water Charitable Foundation. “We’re honored to partner with the City of Jerseyville on this initiative, which offers children and families a joyful way to engage with water – one of our most vital natural resources. We hope the community enjoys the splash pad for many years to come.”

The splash pad provides a water-based play space designed for people of all ages and abilities. It encourages playful interaction with nature, inspires environmental awareness, and nurtures a sense of connection to the natural world. As part of the city’s continued efforts to expand recreational resources and enrich residents’ quality of life, the splash pad reflects a commitment to creating vibrant, inclusive public spaces.

The ribbon cutting ceremony included remarks from Mayor Stork and Rebecca Losli, president of Illinois American Water on behalf of the American Water Charitable Foundation.

“Illinois American Water has provided water and wastewater service in Jerseyville since 2020. We are extremely grateful to be part of the community and thrilled the American Water Charitable Foundation was able to help bring the splash pad to life,” said Losli.
