American Water Spotlights Water Stewardship at CERAWeek 2026

CAMDEN, N.J., March 24, 2026 /PRNewswire/ -- American Water (NYSE: AWK), the largest regulated water and wastewater utility company in the U.S., contributes to global conversations on water stewardship, advocacy and resilience during CERAWeek 2026, held March 23-27, 2026, in Houston, Texas.

Christine Keck, VP and Chief Legislative and External Affairs Officer, American Water, will join global energy executives, policymakers and industry leaders at the conference, participating in the panel *Valuing Water: A strategic imperative for the energy industry*.

The session will explore water scarcity and evolving regulatory expectations that are prompting energy and energy-intensive industries to prioritize water stewardship. Panelists will discuss solutions and cross-sector collaboration to strengthen operational systems and resilience.

With regulated operations across 14 states, American Water plays a critical role in driving economic investment while addressing infrastructure needs, protecting water sources and supporting workforce development. Through leadership participation in conferences and summits like CERAWeek 2026, American Water continues to engage with regulators and industry partners to advance innovative, customer-focused solutions.
