California American Water Celebrates Earth Day With Water Saving Tips

Simple Ways to Make Earth Day Every Day

SAN DIEGO, April 21, 2026 /PRNewswire/ -- In recognition of Earth Day, California American Water is highlighting the importance of protecting local water resources through environmental stewardship, strategic infrastructure investment and community engagement.

Serving approximately 720,000 people across California, the company works year-round to protect water at its source while delivering safe, reliable service to homes and businesses across California.

"Protecting water starts long before it reaches the tap," said **Sarah Leeper, President of California American Water**. "Our employees are committed every day to strengthening infrastructure, safeguarding local water resources and supporting the communities we serve."

California American also encourages customers to take simple steps at home that help conserve water and protect this vital resource, including fixing leaks, turning off the tap while brushing teeth, running full loads of laundry and dishes and properly disposing of household items like batteries, paint and unused medications.

For more Earth Day information and resources, visit the U.S. Environmental Protection Agency Earth Day website: epa.gov/earthday.

This Saturday, April 25, is also National Prescription Drug Take Back Day, organized by the U.S. Drug Enforcement Administration. Unneeded medications can be safely disposed of at official drop-off locations across California from 10:00 AM to 2:00 PM. Find local drop-off locations and more information at dea.gov/takebackday.
