

West Virginia American Water Announces \$166,000 Infrastructure Project in Fayetteville

FAYETTEVILLE, W.Va., Aug. 18, 2026 /PRNewswire/ -- West Virginia American Water is pleased to announce a \$166,000 infrastructure upgrade project on Lakota Road in Fayetteville.

"We are committed to continued investing in infrastructure upgrades across our system" said **Scott Wyman, President of West Virginia American Water**. "The Lakota Road project is a benefit to Fayetteville customers and will allow us to continue providing safe, clean and reliable water to the community."

The project entails replacing 860 feet of aging pipe with 2-inch PVC main and will occur on Lakota Road from Beckwith Road to the end of Lakota Road. It is scheduled to be completed by the end of September, and the final street restoration will be completed in the fall of 2026. Crews will work Monday through Friday between 7:30 a.m. and 5:00 p.m., and traffic restrictions will be in place for the duration of the project.

This infrastructure upgrade project is part of West Virginia American Water's plan to invest more than \$129 million in ongoing infrastructure upgrades across the state in 2026, supporting the economic health of communities across the company's service area. Economic impact studies show that for every \$1 million invested in water infrastructure, upwards of 10 jobs are generated throughout local economies.

Over the past decade, West Virginia American Water has invested over \$805 million in infrastructure projects and capital upgrades to address aging infrastructure across the Mountain State, including more than 168 miles of new water main. To learn more about these ongoing investments, [visit the company's interactive upgrade map](#).

During construction, customers may experience temporary service interruptions, discolored water, and/or lower than normal water pressure. Crews will work as quickly as possible to shorten the length of these temporary inconveniences. To report water related emergencies such as leaks, main breaks or other service disruptions, [customers can submit a service request on the company's website](#).
