

West Virginia American Water Announces \$275,000 Water Infrastructure Project on Thompson Avenue

BLUEFIELD, W. Va., Sept. 9, 2026 /[PRNewswire](#)/ -- West Virginia American Water is pleased to announce a \$275,000 water infrastructure project on Thompson Avenue in Bluefield.

"Ongoing, proactive investments are critical to help maintain and improve the reliability and resiliency of our systems," said **Scott Wyman, President of West Virginia American Water**. "This infrastructure upgrade project on Thompson Avenue will help maintain safe, reliable water service for the Bluefield community."

The project will take place on Thompson Avenue, from Walton Avenue to Maryland Avenue. Crews will replace 600 feet of aging pipe with 2-inch PVC main, with work scheduled to be completed by the end of October. Final street restoration will be completed in fall 2026. Work will occur Monday through Friday between 7:30 a.m. and 5:30 p.m., and traffic restrictions will be in place for the duration of the project.

This infrastructure upgrade project is part of West Virginia American Water's plan to invest more than \$129 million in ongoing infrastructure upgrades across the state in 2026, supporting the economic health of communities across the company's service area. Economic impact studies show that for every \$1 million invested in water infrastructure, upwards of 10 jobs are generated throughout local economies.

Over the past decade, West Virginia American Water has invested over \$805 million in infrastructure projects and capital upgrades to address aging infrastructure across the Mountain State, including more than 168 miles of new water main. To learn more about these ongoing investments, [visit the company's interactive upgrade map](#).

During construction, customers may experience temporary service interruptions, discolored water, and/or lower than normal water pressure. Crews will work as quickly as possible to shorten the length of these temporary inconveniences. To report water related emergencies such as leaks, main breaks or other service disruptions, [customers can submit a service request on the company's website](#).
