

West Virginia American Water Announces \$470,000 Infrastructure Upgrade on Knollwood Drive

CHARLESTON, W. Va., Oct. 8, 2026 /[PRNewswire](#)/ -- West Virginia American Water is pleased to announce a \$470,000 infrastructure upgrade project on Knollwood Drive in the West Side of Charleston.

"Ongoing investment in infrastructure projects is important in helping to maintain a resilient system," said **Scott Wyman, President of West Virginia American Water**. "This project will help us continue to serve our customers and provide safe, clean water to our community."

The project will occur on Knollwood Drive from the intersection of Winwood Drive and extend approximately 900 feet down Knollwood Drive and includes replacing 900 feet of aging pipe with 6-inch PVC main. Work began the week of September 28, and final street restoration will be completed in fall 2026. Crews will work Monday through Friday between 7:00 a.m. and 5:00 p.m., and traffic restrictions will be in place for the duration of the project.

This infrastructure upgrade project is part of West Virginia American Water's plan to invest more than \$129 million in ongoing infrastructure upgrades across the state in 2026, supporting the economic health of communities across the company's service area. Economic impact studies show that for every \$1 million invested in water infrastructure, upwards of 10 jobs are generated throughout local economies.

Over the past decade, West Virginia American Water has invested over \$805 million in infrastructure projects and capital upgrades to address aging infrastructure across the Mountain State, including more than 168 miles of new water main. To learn more about these ongoing investments, [visit the company's interactive upgrade map](#).

During construction, customers may experience temporary service interruptions, discolored water, and/or lower than normal water pressure. Crews will work as quickly as possible to shorten the length of these temporary inconveniences. To report water related emergencies such as leaks, main breaks or other service disruptions, [customers can submit a service request on the company's website](#).
